Output format No video preset **Flash Video (.flv)**

I accept the terms OK

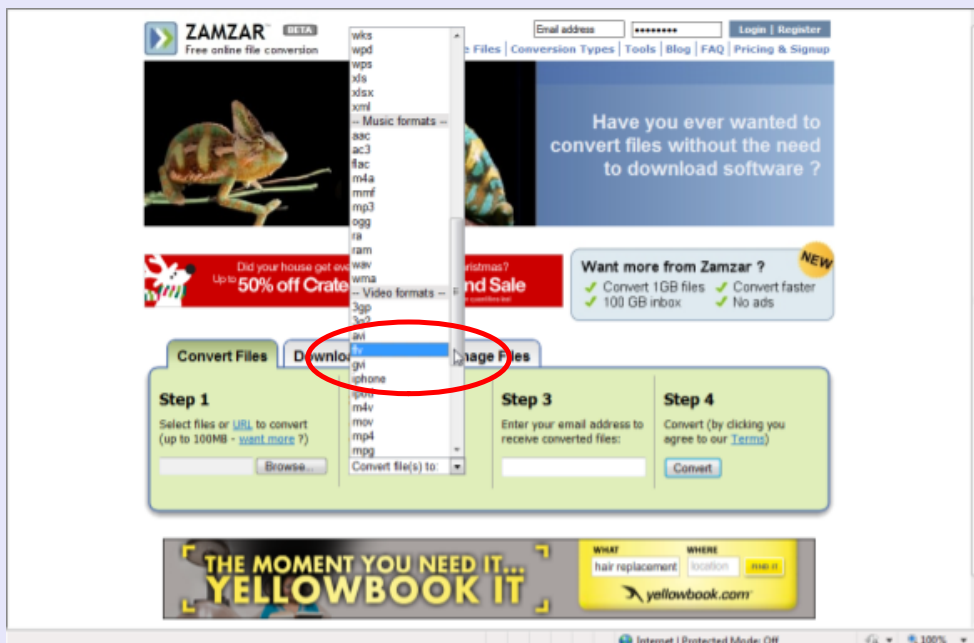

If the file cannot be saved as a FLV file, you must convert it to a FLV file.
To do this save the file in what ever format it will save as... i.e... .wav, mvw, etc..
Open up <http://www.zamzar.com/>

The screenshot shows the Zamzar website interface. At the top, there is a navigation bar with the Zamzar logo, a "BETA" badge, and a search bar for "Email address". Below the navigation bar is a banner featuring two chameleons and the text "Have you ever wanted to convert files without the need to download software?". Below the banner is a section for "Want more from Zamzar?" with a "NEW" badge and a list of features: "Convert 1GB files", "Convert faster", "100 GB inbox", and "No ads". Below this is a section for "Convert Files", "Download Videos", and "Manage Files". The "Convert Files" section is highlighted and contains four steps: Step 1: "Select files or URL to convert (up to 100MB - want more ?)" with a text input field and a "Browse..." button; Step 2: "Choose the format to convert to:" with a "Convert file(s) to:" dropdown menu; Step 3: "Enter your email address to receive converted files:" with a text input field; Step 4: "Convert (by clicking you agree to our Terms)" with a "Convert" button. An arrow points from the text below to the "Browse..." button in Step 1.

Browse to where the file has been saved.

In the second step scroll to the video formats section and highlight flv.

Convert Files

Download Videos

Manage Files

Step 1

Select files or [URL](#) to convert
(up to 100MB - [want more ?](#))

Browse...

Step 2

Choose the format to
convert to:

flv

Step 3

Enter your email address to
receive converted files:

Step 4

Convert (by clicking you
agree to our [Terms](#))

Convert

In Step 3 enter your email address and in Step 4 click on Convert.
Your converted file will be emailed to you. Open the file, save it and then
drag it into the notebook that you want it in.
